

KVH at a Glance

Enhancing Lives, Enabling Business,
Connecting the World

Forward-looking Statements

This presentation contains forward-looking statements that involve risks and uncertainties. For example, forward-looking statements include statements regarding projected financial results, the anticipated benefits of our restructuring and other initiatives, anticipated cost savings, our investment plans, our development goals, and the potential impact of our future initiatives on revenue, competitive positioning, profitability, and orders. Actual results could differ materially from the results projected in or implied by the forward-looking statements made in this presentation. Factors that might cause these differences include, but are not limited to: continued increasing competition, particularly from lower-cost providers, low earth orbit satellite systems and other telecommunications systems, especially in the global leisure market, which is reducing demand for geosynchronous satellite services, including ours; the impact of lower revenue from the U.S. Coast Guard; potentially lower product and service margins from reseller arrangements; the risk that sales of Starlink terminals will slow down or decrease; potential hardware and software competition for our new CommBox product offerings; unanticipated obstacles to implementation of our manufacturing wind-down; unanticipated costs and expenses arising from the wind-down; unanticipated effects of the wind-down on our ongoing business; the risks associated with increased customer reliance on third-party hardware; the lack of future product differentiation; new service offerings from hardware providers; potential customer delays in selecting our services; the uncertain impact of continuing industry consolidation; the risk that our OpenNet program will lead to further reductions in sales of our satellite products; the risk that our current and future non-exclusive arrangements with Starlink and OneWeb will not provide material benefits; contingencies and termination rights applicable to pending and future property and asset sales; uncertainty regarding customer responses to new product and service introductions; challenges and potential additional expenses in retaining our employees, particularly in the current competitive labor market characterized by rising wages; the challenges of meeting customer expectations with a smaller employee base; uncertainties created by our new business strategy, which may impact customer recruitment and retention; the uncertain impact of ongoing disruptions in our supply chain and associated increases in our costs; the uncertain impact of inflation, particularly with respect to fuel costs, and fears of recession; the uncertain impact of the wars in Ukraine and the Middle East and international tensions in Asia, including the impact of dramatic shifts in U.S. geopolitical priorities; unanticipated changes or disruptions in our markets; technological breakthroughs by competitors; changes in customer priorities or preferences; increasing customer terminations; unanticipated liabilities, charges and write-offs; the potential that competitors will design around or invalidate our intellectual property rights; a history of losses; continued fluctuations in quarterly results; the uncertain impact of recent dramatic changes in both U.S. and foreign trade policy, including actual and potential new or higher tariffs and trade barriers, as well as trade wars with other countries; potentially inflationary impacts of tariffs and budget deficits; unanticipated obstacles in our product and service development, cost engineering and manufacturing efforts; adverse impacts of currency fluctuations; our ability to successfully commercialize our new initiatives without unanticipated additional expenses or delays; reduced sales to companies in or dependent upon the turbulent oil and gas industry; the impact of extended economic weakness on the sale and use of marine vessels and recreational vehicles; continued challenges of maintaining our market share in airtime services; the risk that declining sales of the TracNet H-series and TracPhone V-HTS series products and related services will continue to reduce airtime gross margins; the risk that reduced product sales will continue to erode product gross margins and lead to increased losses; potential continuing declines or changes in customer demand, due to economic, weather-related, seasonal, and other factors, particularly with respect to the TracNet H-series and TracPhone V-HTS series; exposure for potential intellectual property infringement; changes in tax and accounting requirements or assessments; and export restrictions, delays in procuring export licenses, and other international risks. These and other factors are discussed in more detail in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 10, 2026, as they may be updated by subsequently filed Quarterly Reports on Form 10-Q. Copies are available through our Investor Relations department and website, investors.kvh.com. We do not assume any obligation to update our forward-looking statements to reflect new information and developments.

KVH: 40+ Years of Maritime Leadership

01

Leader in mobile connectivity, satellite TV, content, and network management for maritime

02

Integrated multi-orbit, multi-channel hybrid connectivity solutions

03

Subscriber base of approximately 10,700 vessels at the end of Q2 2026

04

Global dealer, distributor, and service provider network offering airtime and technical support, installations, and field service

The KVH Advantage is the Power of One®

One expert source combining hardware, software, and services into seamless solutions

**GEO, LEO, and
Cellular Hardware**

**Intelligent Hybrid
Network**

**Multi-level
Cybersecurity**

**Network &
Bandwidth
Management**

**Content for
Crew Morale**

**Global Service
& Support**

KVH ONE®

Multi-orbit, Multi-channel Integrated Hybrid Connectivity

GEO (Geosynchronous Orbit)

Enterprise-grade Connectivity - Ku-band VSAT

- Thousands of vessels on KVH ONE VSAT
- Delivered via high-reliability parabolic antennas
- Ideal for mission-critical operations, value-added services, and more

MEO (Medium Earth Orbit)

Potential Future Coverage

LEO (Low Earth Orbit)

Emerging Global Coverage

- \$1 - \$5/GB data plans
- Flat panel electronic arrays
- High-speed connectivity for operations, content streaming, IoT, crew welfare, and more

5G Cellular

Ultra-light, Ultra-compact Antenna

- Data speeds as fast as 300 Mbps
- Coverage 32+ km (20+ mi) offshore

Shore-based Wi-Fi

Free Access

- Data speeds as fast as 20-500 Mbps
- Coverage 500m (0.3 mi) offshore

Learn more about KVH's multi-orbit, multi-channel integrated hybrid connectivity solutions, visit: www.kvh.com

GEO
Orbit: 36,300 km (22,600 mi)
Global coverage
20/3 Mbps max speed

MEO
Orbit: 19,300 km (12,000 mi)

LEO
Orbit: 800-1,100 km
(500-700 mi)
High-speed, low-latency
100-220 Mbps max speed

CommBox™ Edge

Leisure Yachts

Commercial Vessels

Military/Government Vessels

Evolving from Hardware to Integrated Services

Enhancing LEO Service & Experience for Users

- Tier 1 Starlink reseller and integrator
- OneWeb reseller and integrator
- Delivering LEO hardware and airtime globally
- Online, self-service activation via secure MyKVH and KVH Manager
- Live airtime and technical support
- Extensive suite of LEO tools, reporting, and value-added services

 Represents KVH Connected Ship via KVH ONE networks

Chosen by Commercial Maritime Leaders

And Premier Yacht Builders

The background is a dark navy blue. It features a subtle, repeating pattern of concentric circles and small dots, resembling a stylized atomic structure or a network diagram. The circles are thin and light blue, and the dots are small and light blue. The pattern is distributed across the entire background, creating a sense of depth and complexity.

Solid Financial Foundation with LEO-driven Growth

Strong Financial Foundation

- **Built on positive momentum reported in the first quarter due to strategic focus on LEO airtime revenue and subscriber growth**
- **Expanded connectivity portfolio while divesting non-core, non-connectivity businesses**
- **Maintaining a debt-free balance sheet**
- **Automation and resources in place to increase LEO business with minimal new OPEX investment**

Strong Balance Sheet and Leading Indicators

- **Solid balance sheet with \$57.7M in cash and zero debt**
- **33% growth in subscribing vessels in YoY (EOP 2Q26 vs 2Q25)**
 - Q1 2026 was ninth consecutive quarter of growth
- **Continued strength in connectivity shipments: 2Q26 shipped >2,500**
 - 2025 was a record year shipping 6,000
- **Subscriber base shift: LEO subscribers continue to exceed GEO subscribers for the second quarter**

Financial Highlights: 2Q 2026

- **Revenue**

- Year over Year: 2Q 2025 to 2Q 2026
 - Total revenues up 27% (\$33.7 million from \$26.6 million)
 - Service revenue up 29% (\$29.7 million from \$23.0 million)
- Sequential: 1Q 2026 to 2Q 2026
 - Total revenues up 4% (\$33.7 million from \$32.3 million)
 - Service revenue up 5% (\$29.7 million from \$28.2 million)

- **Service gross margin was 36%, relatively flat, up 1% compared to the prior quarter**

- **EBITDA**

- Non-GAAP adjusted EBITDA was \$3.0 million in 2Q 2026, compared to \$2.7 million in 2Q 2025
 - GAAP-to-Non-GAAP reconciliation available in the appendix

The background of the slide is a dark navy blue. It features a subtle, repeating pattern of concentric circles and small dots, resembling a stylized globe or a network of connections. The circles are light blue and the dots are a slightly darker shade of blue. The text is centered horizontally and vertically on the slide.

Established Maritime Footprint and Customer Expertise

KVH's Key Selling Propositions

- **40+ years of maritime technology and connectivity experience**
 - Worldwide sales and service partner channel (70+ service providers, 600+ dealers/distributors)
- **Portfolio, processes, and networks optimized for maritime**
 - GEO, LEO, and 5G networks for global hybrid connectivity
- **Robust customer service infrastructure**
 - 24/7/365 live airtime and technical support
 - Customer self-activation tool and integrated service management via KVH Manager
- **Advanced network controls and toolsets**
 - Robust network and bandwidth managed via CommBox Edge Communications Gateway
 - Award-winning valued-added services, including crew content, and Internet access via captive portal

Fully Embedded in Maritime Communications

- **Solving commercial maritime challenges**
 - Multi-WAN configurations for operations, redundancy, and compliance
 - Flexible sales, lease, and rental options
 - Supporting installation requirements for safety, network integration, LAN management, and in-port vessel access
 - Enabling compliance for expanding managed IT and cybersecurity regulatory requirements
 - 24/7 live support for global operations
- **Offering flexibility based on leisure yacht size**
 - Our sales and technical dealers support direct sales and installation for leisure vessels 10 m (30+ ft) and larger as well as yachts and commercial vessels 30+ m (100+ ft)

Starlink from KVH: Integrating LEO Services

Serving as a Tier 1 Starlink reseller strengthens our position as a multi-orbit, multi-network integrated solution provider

- Offering custom airtime plans to supplement Starlink Mobile Priority plans
- Providing a comprehensive hybrid solution with LEO, GEO, 5G, and Wi-Fi
- Activated roughly 9,200 Starlink terminals by the end of Q2 2026

OneWeb from KVH: An End-to-End LEO Solution

- **Rapidly expanding regional coverage**
- **Custom plans with fast data speeds**
 - Data speeds as fast as 100 Mbps/20 Mbps
 - Latency less than 100 ms
- **Choice of compact flat-panel antennas**
 - Compatible with industry-standard cables and connectors
 - Compatible with CommBox Edge Connectivity Gateway

TracNet: Global Hybrid Connectivity Solutions

- **First maritime connectivity systems to integrate VSAT, cellular, and Wi-Fi in a single terminal**
 - Intelligent channel switching
 - Integrated 5G for speeds 300+ Mbps
 - VSAT as fast as 20/3 Mbps (down/up)
- **Lightweight, single-cable, multi-channel integrated design**
 - Reduces purchase and installation costs, and service requirements
 - Single cable for easy conversions
 - Improved field serviceability
 - Legacy geosynchronous orbit service and terminal
 - Winding down manufacture as part of GEO-to-LEO evolution

The background of the slide is a dark blue gradient. It features a subtle, repeating pattern of concentric circles and small dots, resembling a network or signal waves, in a slightly lighter shade of blue. The text is centered in the middle of the slide.

Expanding Connectivity Capabilities via Cloud and Local Value-added Services

Offering an Integrated Portfolio

KVH Manager Customer Portal

- **Single pane of glass for terminal visibility and management**
 - Multi-tenant, white label-able
 - Fleet/Group management
 - Self-activation for select services
 - Expanded LEO reporting and controls
 - Real-time data use reports and billing statements
 - Application category controls
 - Geo-tracking
- **Case creation and management**
 - Simplifies case management per platform, terminal or location
- **Partner API**
 - Allows partners to integrate KVH data and tools within their portals

CommBox Edge: Advanced, Scalable Network Management for Vessels

- **An all-in-one management toolbox for maritime IT professionals**
 - Belowdeck appliance and virtual machine options
- **Intuitive network and bandwidth management**
 - Cloud-managed Software-defined Wide Area Network (SD-WAN)
 - Network optimization and faster speeds thanks to unlimited Performance-enhancing Proxy (PEP)
 - Dynamic network, data, and policy management
 - User controls and captive portal for crew data management
 - Cybersecurity and Intrusion Prevention System (IPS) option built on Cisco Talos and Snort
 - Scheduled remote access for shore-based support
 - Real-time usage reporting
 - Additional features added regularly

Enhancing LEO & GEO via Value-added Services

KVH Link, MAILink, Crew Email, Crew Internet, and Captive Portal

- **Award-winning entertainment and crew wellbeing content**
 - Licensed movies, TV, music, daily print and TV news, wellness content (meditation, etc.)
 - Updated daily via any WAN connection, stored locally
- **Email services**
 - Accounts follow crew from vessel to vessel
 - User access over any available data connection
 - Available for intraship communications
- **Crew Internet and captive portal**
 - Users receive Login and Password to connect
 - Data allocation per day, week or month
 - Voucher options for crew and guest top-ups

The background is a dark navy blue. It features a subtle, repeating pattern of concentric circles and small dots, resembling a stylized atomic structure or a network diagram. The circles are thin and light blue, and the dots are small and light blue. The pattern is distributed across the entire background, creating a textured, futuristic feel.

Sales, Service, and Support Capabilities

Global Network of Technical Service Partners

24/7 Airtime Service and Support

- **Staffed airtime services team always available**
 - Follow-the-sun network, network operations, technical support and airtime service groups
 - Voice, email, portal and WhatsApp for real-time support for activations, airtime plan changes, and billing issues
- **Online activation**
 - Accessible via the secure KVH Manager portal and app
 - Instant-on activation
 - Supporting individual new terminals plus additional terminals for existing accounts and fleets
 - Enabling rapid scaling of new service activations

Path for Continued Success in 2026

- **KVH service revenue growth tied to rapid growth of Starlink and other LEO services**
- **Drive revenue growth through increased subscriber base, increased ARPUs and integration of Starlink and OneWeb within our product portfolio**
- **Maintain cost-effective network capacity on multiple constellations**
- **Strategic steps to achieve these goals include:**
 - Pursue airtime subscriber growth through support of non-KVH antennas as well as the addition of airtime options via future KVH products
 - Expand our suite of value-added and managed services
 - Increase value-added services and network/bandwidth management subscribers among non-KVH communications platforms
 - Gain scale through organic growth

The background is a dark navy blue. It features a repeating pattern of faint, light blue concentric circles. Each circle is composed of small dots, and the circles are arranged in a way that they overlap and create a sense of depth and movement.

Appendix Non-GAAP Reconciliation

KVH INDUSTRIES, INC. AND SUBSIDIARIES
RECONCILIATION OF GAAP NET INCOME (LOSS) TO NON-GAAP
EBITDA AND NON-GAAP ADJUSTED EBITDA
(in thousands, unaudited)

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Net income (loss) - GAAP	\$ 163	\$ 930	\$ 751	\$ (780)
Income tax expense	203	105	328	130
Interest income, net	(546)	(579)	(1,147)	(1,146)
Depreciation and amortization	2,316	2,606	4,761	5,494
Non-GAAP EBITDA	2,136	3,062	4,693	3,698
Stock-based compensation expense	411	434	717	771
Disposal of a discontinued project	—	287	—	287
Loss on an unfavorable future contract	—	12	—	12
Employee termination and other variable costs	245	26	248	29
Transaction-related and other variable legal and advisory fees	76	66	76	66
Loss (gain) on sale of fixed assets, including real estate	144	(1,330)	128	(1,330)
Foreign exchange transaction (gain) loss	14	101	(62)	132
Non-GAAP adjusted EBITDA	\$ 3,026	\$ 2,658	\$ 5,800	\$ 3,665

The image features a dark blue background with a repeating pattern of concentric circles and dots, resembling a stylized atomic structure or a network. In the center, there is a white rectangular box containing the logo "KIVHI®". The logo is composed of the letters K, I, V, H, and I, each enclosed in a square frame. The letters are stylized: the 'K' has a diagonal line, the 'I' has a vertical line, the 'V' has a diagonal line, the 'H' has a horizontal line, and the final 'I' has a vertical line. A registered trademark symbol (®) is located to the upper right of the final 'I'.

KIVHI®
